3 Corrections

The delivered archive name/hash, portable hash sidecar, axiom-query coverage, and the $s = 2$, $o \geq 1$ tightness wording were corrected in the v1.2 batch. The manuscript contains no internal version narrative. No protected theorem, hypothesis, constant or proof step changed.

4 Overall verdict

PASS. No unresolved internal blocker or major finding remains. Independent reconstruction, external adversarial audit, specialist prior-art review, peer review, tagging and publication approval remain open.
